Vizrt's policy is one of continual development, so the content of this document is periodically subject to be modified without notice. These changes will be incorporated in new editions of the publication. Vizrt may make improvements and/or changes in the product(s) and/or the program(s) described in this publication at any time.
Vizrt may have patents or pending patent applications covering subject matters in this document. The furnishing of this document does not give you any license to these patents.

Antivirus

Vizrt does not recommend or test antivirus systems in combination with Vizrt products, as the use of such systems can potentially lead to performance losses. The decision for the use of antivirus software and thus the risk of impairments of the system is solely at the customer's own risk.

There are general best-practice solutions, these include setting the antivirus software to not scan the systems during operating hours and that the Vizrt components, as well as drives on which clips and data are stored, are excluded from their scans (as previously stated, these measures cannot be guaranteed).

1   Graphics Plugin For Avid 3.0.1

Release Date: 2024-12-03

These are the release notes for Graphics Plugin for Avid version 3.0.1. This document describes the user-visible changes that have been made to the software since release 3.0.0.

1.1   Fixed Issues

- When new projects are created on the window selection menu, the edit window is now the option selected by default (NLE-3313).

1.2   Known Issues

- In some scenarios, graphics do not appear in the rendered output file when using this version. For workflows requiring graphics burned-in on the rendered output files, continued use of version 2.4 is recommended (NLE-3326).

2   Graphics Plugin For Avid 3.0.0

Release Date: 2024-11-07

These are the release notes for Graphics Plugin for Avid version 3.0.0. This document describes the user-visible changes that have been made to the software since release 2.4.1.

2.1   New Features

- Native support for Media Composer's Full Quality (float) preview (NLE-3283).
- New back-end with improved image processing operations (NLE-3206).
- New branded installer (NLE-3156).
- Viz Trio is no longer shipped in the plugin installer (NLE-3119).
- Removed Media Sequencer from the General area in the Graphics Plugin Configuration Tool (NLE-3184).

2.2   Fixed Issues

- Graphics Plugin Configuration Tool failed to report if the configurations were changed (NLE-3285).
- Default URL caused host fields to show none as the port value (NLE-3053).

2.3   Known Issues

- In some scenarios, graphics do not appear in the rendered output file when using this version. For workflows requiring graphics burned-in on the rendered output files, continued use of version 2.4 is recommended (NLE-3326).

3   Documentation

Documentation for the Graphics Plugins is available at the Vizrt Documentation Center:

- Graphics Plugin Administrator Guide
- Graphics Plugin User Guide

4   Support

Support is available at the Vizrt Support Portal.
